DETAILED ACTION

Allowable Subject Matter

Claims 1, 3, 5, 10 and 12-17 are allowed.

The following is an examiner's statement of reasons for allowance: Essentially, the arguments presented by applicant in the Remarks accompanying the amendment of February 6, 2004 are persuasive. While the prior art references individually disclose each of the features of the claimed invention, there is no suggestion or motivation to combine the teachings of the references without using impermissible hindsight. In particular, the use of n-methyl-2-pyrrolidone in the Fisher reference is substantially different from its use in the claimed invention, as argued in pages 14-15 of the Remarks. There is no motivation or suggestion to combine the teachings of Fisher with those of Grubbs et al. As a result, claims 1, 3 and 10, and all claims dependent therefrom, are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
